Welcome To Our Fifth Annual Sale

I always look forward to the first Saturday of the American Royal. It is on this day that we welcome Shorthorn breeders, friends and neighbors to our annual sale of club calves and females.

We are again glad to be joined by our neighbors, C. H. Houghton and Sons, Polo; Floyd Price, Gower, and S. R. Eads, Turney, to make up a very good group of steer calves.

A special added attraction should be the group of heifers from Cary Colburn, Harrisonville, where, with the capable management of Dick Karst, they maintain one of Missouri's finest herds. Our own group of bred heifers is the best we have put in any sale and the hardest to part with.

The record of breed and interbreed championships both on the hook and on the hoof which has been made by junior exhibitors with calves purchased in our annual sales has convinced us that we are producing the kind that cattle judges are looking for.

We have kept back only one bull calf this year. None have been sold. You get the first pick on Saturday, October 17th. Why not plan to be with us?

Standard Guarantee

RECOMMENDED BY AMERICAN SHORTHORN ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf, must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

6. Shipment will be made as soon as possible after the close of the sale, but at purchasers risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.
